WHO WE ARE

Ecogreen Holidays Sdn Bhd was incorporated in June 2012. The company is registered & licensed with the Ministry of Tourism Malaysia for Inbound & Outbound Tourism.

Although being a fairly new company, Ecogreen Holidays is owned and managed by a dynamic team with more than 20 years of experience in the Tourism Industry. With this acquired knowledge, we understand the ever changing needs of today's holiday makers and travellers alike. We have become a fast growing tour operator and travel agent that is capable of all your travel related requirements.

We have established very close business relationships with trusted associates in the travel industry worldwide, namely Europe, Scandinavia and also Asian counterparts in Singapore, Thailand, Indonesia, Turkey, Korea, China, India and not forgetting a very good bond with our own Malaysian counterparts. This has enabled us to obtain the most competitive rates for services, thus passing on the cost savings to our clients.

We are committed towards offering a full range of products and services to cater for the specific needs of our customers from escorted groups, free and independent packages, specialized tour requests, Meeting Incentive Conference Events for corporate companies (MICE)

OUR VISION: To project ourselves as a leader in ecotourism while ensuring sustainability in our natural resources and ecosystems. We strive for success without undermining the integrity and stability which enables the economic and social development of local communities.

OUR MISSION: Is to serve all customers promptly and accurately. We foster concern for the environment, taking care not to alter the integrity of the ecosystem while producing economic opportunity that makes the conservation of natural resources beneficial to local communities.

OUR PHILOSOPHY: To work closely with our clients in every stage of their travel planning, allowing us to find the best solution to meet our client's requirements.

OUR VALUES: To provide quality, affordable services while ensuring customer satisfaction.

OUR CONCEPT: Ecotourism is the in-thing for today's travellers and **Ecogreen Holidays** alike – we know what it is like to hear and read news on the deterioration in the quality of the earth environment; flora and fauna species; as well as indigenous communities in facing extinction. But what may not always make news is the long-term performance that our company is intending to aim, achieve and acquire on our little part here to save our planet in the course of guiding you.

As such, we are inviting you to embark on our excursions that involve environmentally responsible travel and visitation to relatively undisturbed natural areas to enjoy and appreciate nature amidst cultural features while at the same time promotes conservation

KPL/LN: 6923 (Co. No. 1006612-U)

of these earthly assets. How we do it – we ensure low visitor impact for tours to all ecosystems. For adventure trips, we segregate bigger groups into smaller ones and diversifying their tracks in vulnerable areas. This means involving additional manpower in handling your needs. On the other hand, we only accept small group of 8 persons and below for high-end trekking expeditions. Essentially, we also provide employment for local communities we visit so as to enable them to benefit from the industry's socio-economic norms. We engage localized trekkers, porters and cooks to make your trips a more fulfilling one.

We know that in order for our company to continue to be in business we need to strive to abide by our mission plans, our clients' expectations, our authorities' regulations and society's necessities. It is simply the only path to the future. For a company as newsworthy as ours, at times it can be difficult to see tourists as friends, to see the trees as forest, and to see flora, fauna and local communities as jungle dwellers. But to look beyond immediate challenges and position our company for long-term success, we have to keep YOU as our eco-conservation partners; to keep our flora and fauna as fellow living things; to keep the rights of our local communities; more importantly we have to keep their home – THE WHOLE RAINFOREST – squarely in sight. And that is a foresight we feel is worth sharing.
